

LAND TRANSPORT AUTHORITY

UPS System Provision Tender

The Land Transport Authority urgently requires the installation of Uninterruptible Power Supplies to ensure continuous power supply for vital IT Equipment located at its Head Office in Valelevu.

Proposals are invited from leading companies for the supply of an UPS System that has the following provisions:

- **True Online Double Conversion UPS**
- **Power Ratings to be determined through a site survey**
- **Minimum 1hour run-time**
- **Modular design for maximum flexibility and easy upgrading to higher capacities, redundancy, etc.**
- **Wide input-voltage tolerance together with PFC (Power Factor Correction) System and Backfeed Protection**
- **Comprehensive user interface**
 - Operation mode: on line, on by-pass, on battery
 - Power consumption
 - Battery charge
 - Status of switchable outlets
 - Replace battery indicator and UPS fault
- **Hot swappable batteries**
- **Power & Network Management**
- **Built-in additional charger**
- **At least 2 years warranty inclusive of batteries**

Submitted proposals must also include:

- Company Profile
- Experience in UPS implementation
- Project Plan including costs
- Relevant staff qualification and experience
- Any other relevant information
